| About Chihuly | Long Shadows' founder Allen Shoup was as passionate about art as he was wine, and the Chihuly Tasting Room (1,075 sq. ft.) reflects Allen's ongoing commitment to both. An art collector himself, Allen and artist Dale Chihuly began a friendship in the mid-1980s that eventually led to the Chateau Ste. Michelle Artist Series and later a collaboration on Long Shadows' Walla Walla tasting room. |
| Chihuly art on display | <p>"Sunburst on Grapes" – custom chandelier</p> <p>Macchias – two sets of three (six in total) displayed to create the impression of a field of wildflowers</p> <p>"Blue Ridge Tall Grass" – another custom-designed installation inspired by the green wheat fields and Blue Ridge Mountains that provide a backdrop to the art</p> <p>Painting – a gift from Chihuly. When Dale presented it to Allen on his first visit to the winery, the painting's palette matched the winery's colors perfectly to both their surprise.</p> |
| About the Artist | Dale Chihuly is an internationally renowned glass artist and Pacific Northwest native, largely credited with turning glassblowing into a serious art form. He has been the subject of many books, critical essays and PBS specials. Chihuly glass sculptures can be found in over 150 major museums around the world, including the Hokkaido Museum of Modern Art, the Metropolitan Museum of Art, the Museum of Modern Art, the Louvre, the Victoria and Albert Museum, and the Whitney Museum. |
